

Tentative Interim Amendment

IAPMO/ANSI UPC 1-2003
Uniform Plumbing Code

2003 Edition

Reference: 715.3
TIA UPC-001

Pursuant to Section 5 of the IAPMO Regulations Governing Committee Projects, IAPMO has issued the following Tentative Interim Amendment to IAPMO/ANSI UPC 1-2003, Uniform Plumbing Code. The TIA was processed by the Plumbing Technical Committee and was issued by the Standards Council on September 17, 2003, with an effective date of October 7, 2003.

A Tentative Interim Amendment is tentative because it has not been processed through the entire standards-making procedures. It is interim because it is effective only between editions of the standard. A TIA automatically becomes a proposal of the proponent for the next edition of the standard; as such, it then is subject to all of the procedures of the standard-making process.

1. Add new Section 715.3 to read as follows:

715.3 Regarding replacement of existing building sewer and building storm sewers using trenchless methodology and materials shall be installed in accordance with IAPMO IS-26.
